# ACCOUNTING

## December, 2019

- Added effective dates to the DeedTypes table so the program can look for the effective date and know which document codes to use.
- Added the proper money amounts for the new law changes starting 01/01/2020.
- Added in the dropdown for choosing deed type to show the description as well as the code value. So instead of just 'WD' in the dropdown, it will display 'WD Warranty Deed'.
- Added in the master deed type table a new 'chargeforreferencedocument' flag which will dictate if a document should charge extra for reference documents. Those are all turned on for anything prior to 2020 and are turned off for 2020 and above except for LIEN local/state government.
- Added to the Real Estate Deed, Plats and UCC Report to display a checkbox to include the first part of the description if its available.
- Added to the real estate screen, if the deed code is tied to a master code, the description will show above the dropdown.

## December, 2019

- Added new case Type CONTEMPT/MODIFICATION/OTHER POST-JUDGMENT
- Updated Pending Case report to include the ability to run the report based on the NEW additional case type.

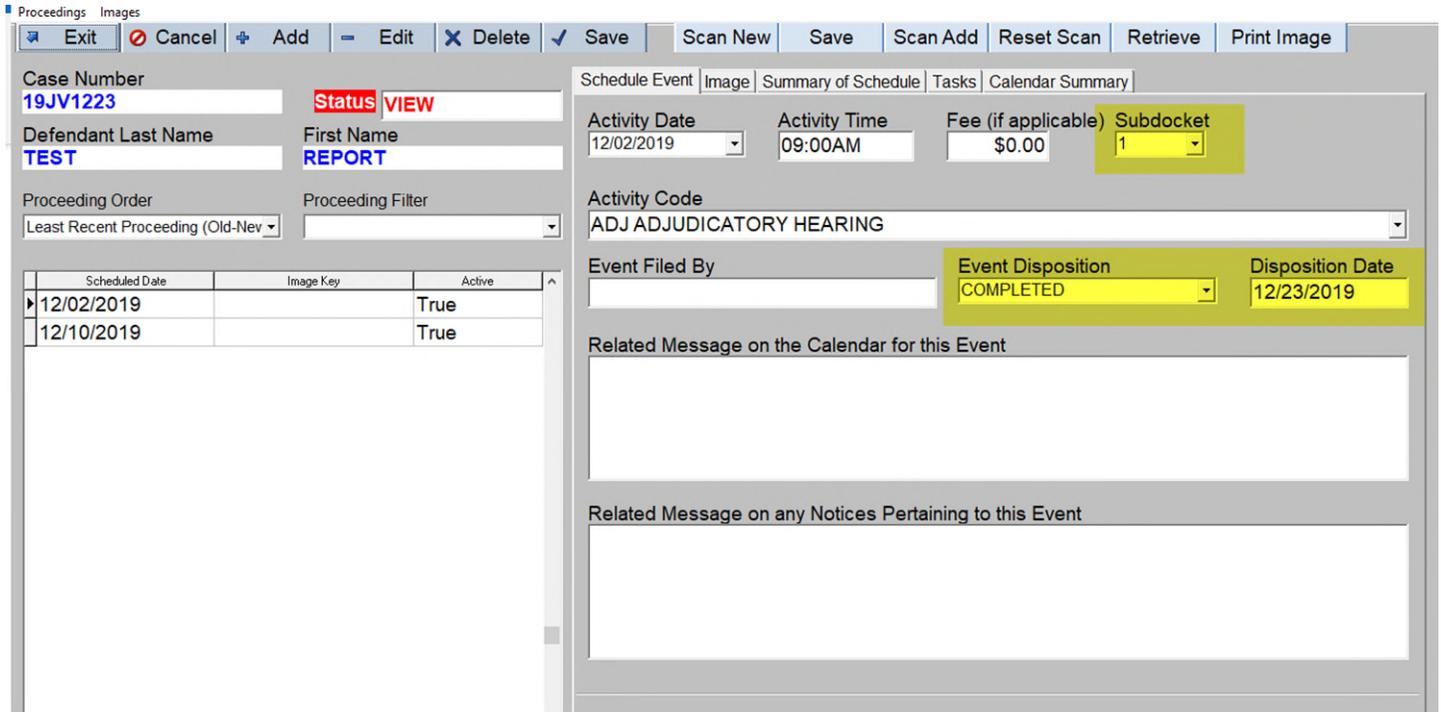

# JUVENILE

## December, 2019

- Added Sub-Docket proceeding information to the Scheduled Event and Proceeding Screen.
- Added ability to update the Sub-Docket drop down in the code table.
- Added Sub-Docket information to the Case Count Report.

### How to use the Sub-Docket in Juvenile

1. Open the Juvenile program and search for the case you need to add the Sub-Docket information to.
2. Go to the Schedule Event Screen.
3. Add in the appropriate hearing information needed for that case.
4. Add in the Sub-Docket number for that hearing.
5. After the hearing has been completed/heard in court go back to the original Schedule Event and add in the disposition information to the scheduled event.
